

University Preparatory School Locker Policy

- Students must purchase their own combination lock. Key locks will not be accepted. Students are required to provide U-Prep the combination at the time the locker is issued and any time your lock or combination is changed. Do not put a lock on a locker that has not been assigned to you; the lock will be removed.
- Keep your locker locked at all times and do not give out your combination.
- Lockers are the property of UPREP. Students who damage, deface or destroy any locker will be held financially liable (contents included). Damages to the lockers will be repaired at the student, parent or guardians expense.
- Students will be assigned an individual locker and will not need to share.

I have read the information on this form and understand my responsibility in abiding with the rules and regulations of the locker policy at University Preparatory School. Additionally, I am aware of the possible consequences if I fail to do so.
